Google Prompting Essentials

Issued by [Coursera](#)

Those who earn the Google Prompting Essentials Certificate have completed four modules, developed by experts at Google, that help them design effective prompts for generative AI. They understand the prompting principles of evaluation, iteration, responsible AI, and have practical experience using AI to help with personal and work tasks. They have experience with text-to-text, text-to-image, and multimodal prompts, and advanced prompting techniques, like prompt chaining and creating an AI agent.
